Discover Solana®.

Since the time of the ancient Greeks, people have found natural healing powers in bubbling pools of hot water. Through the ages, Romans, Greeks, Japanese and other cultures have realized its many benefits through spirit, mind and body. The heat, buoyancy and massage found in the warm, soothing waters of a Solana spa create an experience that is both relaxing and rejuvenating.

Well Being.

Whether it's to unwind from the complexities of everyday life or to soothe sore muscles and joints, the hydromassage of a Solana spa can help you feel better — naturally. Relaxing in a spa stimulates the release of endorphins, which make the body “feel good” naturally, giving you a sense of well being and rejuvenation. Many physicians and physical therapists recognize the value of a hot tub as an ideal environment for rehabilitation therapy.

Soothing Relief.

The Arthritis Foundation recognizes the benefits of hydromassage and warm water exercise to help relieve arthritis pain. A morning soak can provide temporary relief from arthritis pain and help you feel better throughout the day. And relaxing in hot water before bedtime causes the body's internal thermostat to pull your temperature down, enabling you to drift into a deeper, more relaxing sleep.

Relaxation.

Imagine having your own personal masseuse on call whenever you want in the comfort and privacy of your own home. It's a reality with the contemporary, elegant Solana® spa that's always ready when you are. Its variety of jets are adjustable for a customized hydromassage experience. Our exclusive Moto-Massage® jet produces a warm stream of water that sweeps up and down the length of your back. Rotary and directional Hydromassage jets provide deep relaxation. And directional Precision® jets provide an invigorating back and shoulder massage. Whether you want to relax alone or together, consider Solana your private destination for tranquility and rejuvenation each and every day.

Elegance.

Every part of the Solana spa is both stylish and durable, from the crème Enduro!® exterior to the elegant pearlescent or textured granite-like acrylic interior. And the soft glow of a dimmable blue LED light creates a relaxing atmosphere. You can even select your favorite color and set the perfect mood with Splendors®, our optional multi-color light kit.

Anywhere.

Your Solana spa is compact enough to fit in small spaces, yet roomy enough inside to stretch out comfortably. Completely portable, a Solana spa enhances your backyard, patio, sunroom, basement or spare bedroom. With its slim profile and unique shape, the Solana TX fits through a standard doorway, up or down stairs and around corners.

Simplicity.

Solana® spas are all about simplicity. They refuse to complicate your life. Select your desired temperature using the backlit display panel or the optional IQ 2020™ remote control – just “set it and forget it.”

Efficiency.

Foam insulation and a vinyl cover help retain heat to keep energy costs low. Locking straps on the cover provide additional safety. All internal components – pump, heater and filter – are specially designed for low maintenance and are backed by a comprehensive limited warranty. And the integrated filtration system keeps the water clear and fresh with minimal effort. Add the optional FreshWater® III ozone system for more natural water care.

Peace of Mind.

Solana® Spas are part of the Hot Spring® family of spas, the world’s number one selling brand. For three decades, Hot Spring Spas has earned a reputation for quality and excellence, and Solana spas are no exception. They’re part of the Masco Corporation, whose family of leading home products companies include Delta® faucets and KraftMaid® cabinets. Give yourself the special attention and peace of mind you deserve – bring home the relaxation of a Solana spa.
